

PRESS RELEASE

22 February 2023

CHT experts for home & car care products at H3i, the trade fair for cleaning products for household, industry and institutions

- **HANSA® CARE 9180 ECO: Additive for floor care and fabric softeners**
- **HANSA® CARE 7140 ECO: Universal hydrophobic agent**
- **HANSA® CARE 9640 D: Universal care additive**

At the Milan show, CHT will present its **HANSA® CARE 9180 ECO** as an additive for floor care and for fabric softeners. The product improves hydrophilicity, also works on sportswear and microfiber and can prolong the intensity of fragrances. **HANSA® CARE 9180 ECO** can be used as a care component in the formulation of floor care products. In this context, **HANSA® CARE 9180 ECO** provides moisture protection, a slight increase in gloss and color depth and doesn't show an impact on the slip.

HANSA® CARE 9180 ECO is suited as an additive in polishes, wipe care products as well as cleaners.

The fluorocarbon-free **HANSA® CARE 7140 ECO** is particularly suited for formulating wash-in impregnations for outdoor fabrics in the washing machine and, due to its chemical structure, leads to very good hydrophobicity on all synthetic textiles.

HANSA® CARE 7140 ECO is also suited for impregnation of glass, varnish, leather, wood, mineral substrates, etc. Especially in the field of car, aircraft and boat care, paint and glass sealants based on **HANSA® CARE 7140 ECO** show particularly good resistance and allow easy removal of dirt. This product impresses with its simple application and its high protective and beading effect.

HANSA® CARE 9640 D can be incorporated into a wide range of care formulations to provide beneficial properties such as water repellency, improved gloss and color depth, and a pleasant touch.

HANSA® CARE 9640 D can be used in car polishes, in scratch-free waterless car cleaning, for sealing as well as in leather, furniture and vinyl care products.

H3i brings together suppliers of raw materials, ingredients, formulations and services used in the manufacture of household, industrial and institutional cleaning products.

Thereby, the combination of TechFocus presentations, conference and exhibition at H3i creates an interactive platform to discuss the latest innovations and technological advances and their benefits for customers' formulations.

Visit us at our booth 105 from March 7-8, 2023 and convince yourself of our latest product developments in the field of home & car care.

About the CHT Group

The CHT Group is a medium-sized global player for specialty chemicals and active worldwide in development, production and sales. CHT Germany GmbH in Tübingen is the headquarters of the group of companies which focuses on sustainable chemical products and process solutions.

TEXTILE SOLUTIONS of CHT improve the quality, functionality as well as look and purity of textiles and optimize their manufacturing processes.

In the fields of silicones, building materials, paints, coatings, paper, agrochemicals as well as cleaning and care products innovative products and process solutions are provided by INDUSTRY SOLUTIONS.

By combining the strengths of the complete group further innovative products, applications or processes are continually developed and vast technical support is offered within the SCIENCE & SERVICE SOLUTIONS. Highly qualified specialists work in state-of-the art laboratories for development, analytics and application technique in order to work out ideas and solutions that meet the latest requirements.

The CHT Group with its own production and sales locations is represented by more than 26 companies worldwide. In the financial year 2021, the CHT Group generated a group turnover of 630 million Euro with around 2,400 employees. In 2023, CHT celebrates its seventieth anniversary. Let's celebrate seventy years of Smart Chemistry with Character!
